SAOS Dashboard User Guide

Document ID: SYS-DASH-UG-v2.0 **Version:** 2.0 **Status:** PRODUCTION READY **Prepared for:** SAOS Clients **Prepared by:** SOL — SyStack Operations Layer **Builder:** SOL + ASSEMBLY **Source System:** SAOS v2026.06 **Date:** June 24, 2026 **Support:** support@systack.net

Introduction

The SAOS Client Portal is your command center for monitoring and interacting with your AI agent fleet. This guide covers every tab and feature.

Login

Visit your dashboard URL (provided during onboarding). You'll need:

- **Client ID:** Your unique account identifier
- **Access Token:** Optional — if you already have one from a previous session

If you don't have an access token, enter your Client ID and click **Access Dashboard**. The system will authenticate you and issue a token automatically (stored securely in your browser).

Dashboard Navigation

The top navigation bar provides access to five sections:

TAB	ICON	PURPOSE
Chat		Real-time messaging with your AI agents
Dashboard		Fleet status, metrics, agent overview
Services		Your tier-specific services and features
Tasks		Task history and status tracking
Docs		Documentation and guides

Your current plan is displayed as a colored badge in the top-right (e.g., "Business Fleet").

Chat Tab

Your primary way to interact with the SAOS fleet.

Starting a Conversation

1. Click **+ New Chat** in the left sidebar
2. Optionally give your conversation a title (e.g., "Invoice Setup" or "Agent Question")
3. The conversation appears in your sidebar

Sending Messages

- Type your message in the input box at the bottom
- Press **Enter** to send
- Press **Shift+Enter** for a new line in the same message

What to Ask

Your agents can handle requests like:

- "Set up invoice processing for my accounting system"
- "Draft a response to the customer complaint about late delivery"
- "Summarize my unread emails from today"
- "Create a daily report of new leads"
- "Fix the error in my automation workflow"

Agent Responses

Messages appear with: - **Avatar** showing which agent responded - **Timestamp** (e.g., "just now", "5m ago", "2h ago") - **Task Badge** if the message created a task (e.g., "Task #42")

Typing Indicator

When an agent is composing a response, you’ll see “SOL is typing” with animated dots.

Dashboard Tab

Tier Badge

At the top, your current plan is displayed (e.g., Business Fleet \$299/mo, Enterprise Fleet \$799/mo).

Metrics Cards

METRIC	WHAT IT SHOWS
Active Tasks	Currently running agent tasks
Pending	Tasks waiting for an agent to pick up
Completed	Total tasks completed
Unread Messages	New messages from agents you haven’t read

Agent Fleet

A grid showing all agents assigned to your account:

AGENT	ROLE	STATUS
SOL	 Orchestrator	Active when coordinating tasks
CODY	 Build Engine	Active when building workflows
ASSEMBLY	 Deployment	Active when deploying systems
VALI	 Validation	Active when testing outputs
PESSI	 Risk Analysis	Active when reviewing for errors
ORACLE	 Design	Active when planning architecture
ATLAS	 Knowledge	Active when documenting
CHATTY	 Communication	Active when drafting responses
GENI	 Creative	Active when generating content
JURIS	 Legal	Active when reviewing compliance

Services Tab

This is where you see exactly what you’re paying for.

Your Included Services

A grid of cards showing every service included in your tier:

- Icon — Visual identifier for the service type

- **Name** — Service title (e.g., “Invoice Processing”, “Lead Qualification”)
- **Description** — What the service does
- **Status** —  Active (running) or  Setup Pending (being configured)

Infrastructure

Shows your deployment details:

ITEM	WHAT IT MEANS
Infrastructure	Cloud VPS or on-premise hardware
AI Models	Which local models power your agents
Network	How your data is secured (Tailscale, air-gapped, etc.)
Management	Who maintains the system
Team Size	How many users can access the portal

Support

DETAIL	YOUR LEVEL
Support Channel	Community forum, Email, Slack, or Phone
Response Time	From “best effort” to “4-hour SLA”
Setup	Self-install, Remote, or White-glove on-site
Uptime SLA	Percentage guaranteed (if applicable)

Tasks Tab

A complete history of all tasks processed by your agents.

Task Table

COLUMN	WHAT IT SHOWS
ID	Unique task number (e.g., #42)
Type	Category (e.g., client_request, automation, report)
Agent	Which agent handled the task
Status	DONE (green), PENDING (amber), FAILED (red), RUNNING (cyan)
Created	When the task was submitted

Task Creation

Tasks are created automatically when you: - Send a chat message containing keywords like “create”, “build”, “fix”, “help” - Submit a request through an integration (email, webhook, etc.)

Documents Tab

Access to all documentation relevant to your account.

Available Documents

DOCUMENT	PURPOSE
Quick Start Guide v3.0	Get started with SAOS
Service Manual v3.0	Complete reference for your system
Architecture Overview v2.0	Technical architecture details

Enterprise and Private tier clients also receive: - **Enterprise Deployment Guide** — On-premise setup and compliance configuration

Troubleshooting

“Session Expired”

Your token expired. Click **Logout** and log in again with your Client ID.

“Failed to Send Message”

- Check that you selected a conversation
- Ensure your message is not empty
- Check network connectivity

Agent Not Responding

- Check the Dashboard tab to see if agents are online
- Agents may be busy with other tasks
- Try again in a few minutes

Tasks Stuck in “PENDING”

- This usually means the agent queue is busy
- Tasks are processed in priority order
- Check Dashboard metrics for queue length

Security

- All communication is encrypted via Tailscale VPN tunnel
- Your data never leaves your infrastructure (Private tier) or encrypted cloud VPS (Business/Enterprise)
- Access tokens expire after 30 days
- Log out when finished, especially on shared computers

Contact Support

- **Email:** support@systack.net
- **Dashboard URL:** (your Tailscale URL, provided during onboarding)
- **Response Time:** Per your tier's SLA
