Order System (Utopia Deli) — Documentation

Automation ID: `order-system`

Version: 2.1

Status: `live` — needs full documentation

Built: 2026-06-02 (deployed), updated 2026-06-03

Last Updated: 2026-06-11

Owner: Utopia Deli

Builder: SOL

1. Executive Summary

What It Does

Complete online ordering system for Utopia Deli. Customers select items, modifiers, quantity → pay via Square → order confirmation email → logged to Google Sheets → kitchen gets notification.

Business Value

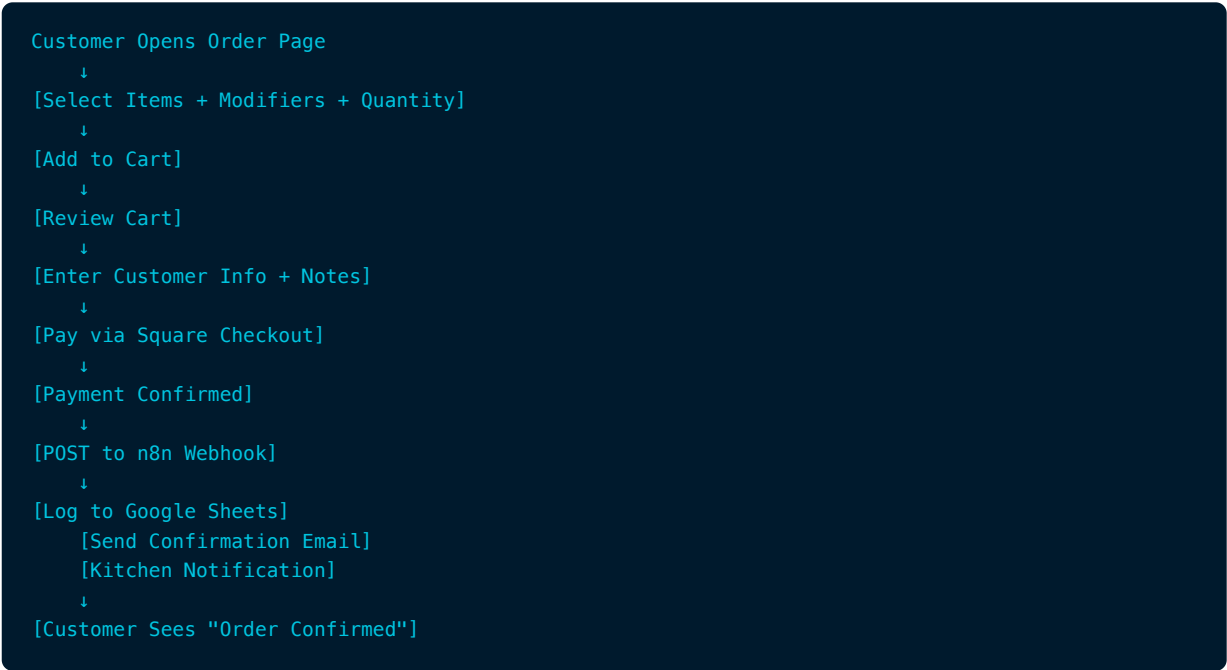

METRIC	BEFORE	AFTER
Order completion time	5-10 min (phone)	~60 seconds
Payment processing fee	20%+ (delivery apps)	3.2% (Square)
Orders accepted	Business hours only	24/7
No-show rate	~15%	< 5% (deposit system)

URLs

- Live: <https://order.theutopiadeli.com/pickup-order/>
- Catering: <https://order.theutopiadeli.com/catering/>

2. System Architecture

Flow Diagram

Components

COMPONENT	TECHNOLOGY	PURPOSE
Frontend	HTML/CSS/JS	Menu, cart, checkout
Payment	Square API	Secure payment processing
Webhook	n8n	Receives order data
Database	Google Sheets	Order logging
Email	n8n Email Node	Confirmation to customer
Kitchen	n8n + notification	Order alert

3. Technical Specifications

Frontend

- **File:** `pickup-order/index.html`
- **Menu config:** `config-v2.js`
- **Logo path:** `../images/logo.png` (relative to subdirectory)

Square Integration

- **API:** Square Checkout v2
- **Credential:** Stored securely
- **Fee:** 3.2% per transaction

n8n Workflow

- **ID:** `Utopia-Deli-Simple-Checkout-v4`
- **Name:** “Utopia Deli HTML Order v1”
- **Status:** ACTIVE

Google Sheet

- **Name:** “Utopia Deli Orders”
- **Columns:** Timestamp, Order ID, Items, Total, Customer, Notes

4. Configuration

Menu Updates

Edit `pickup-order/config-v2.js` :

```
MENU: {  
  sandwiches: [...],  
  specialties: [...],  
  sides: [...] // Added 2026-06-03  
}
```

Environment

VARIABLE	PURPOSE
<code>SQUARE_APP_ID</code>	Square application ID
<code>SQUARE_LOCATION_ID</code>	Deli's Square location
<code>N8N_WEBHOOK_URL</code>	Order submission endpoint

5. Operational Runbook

Daily Checks

- ☐ Orders flowing to Google Sheet
- ☐ Confirmation emails sending
- ☐ Square payments processing
- ☐ Kitchen receiving notifications

Monitoring

METRIC	EXPECTED	ALERT IF
Orders/day	Varies	0 for > 4 hours during open
Payment success rate	> 95%	< 90%
Email delivery	> 98%	< 95%

6. Build Log

Phase 1: Core Order (2026-06-02)

- Built HTML/CSS/JS frontend
- Integrated Square Checkout
- Connected n8n webhook
- Deployed to GitHub Pages

Phase 2: Fix (2026-06-03)

- Fixed `addToCart` using stale global state
- Added `MENU.sides` to `findItem`
- Fixed webhook responding before email sent
- Replaced ES6 spread with explicit property copying

Phase 3: Catering (2026-06-08)

- Built 5-step catering form
- Added scoring logic
- Connected to separate webhook

7. Client Handoff

What Utopia Deli Sees

- Order form at <https://order.theutopiadeli.com/>
- Google Sheet with all orders
- Confirmation emails to customers
- Square dashboard with payments

What They Should NOT Touch

- GitHub repo (Phillip-Lowe/utopia-deli-order)

- n8n workflow configuration
- Square API credentials
- Webhook URLs

Support

ISSUE	RESPONSE
Menu changes	Request via Systack
Payment issues	Check Square dashboard
Orders not logging	Check n8n executions

8. Known Issues

1. **ES6 spread not supported in n8n Code nodes** — use explicit property copying
2. **Logo path** — must use `../images/logo.png` from subdirectory
3. **Webhook order** — must process → email → THEN respond to customer

Appendix: Quick Reference

```
START:    Verify Square credentials + n8n workflow active
STOP:     Disable n8n webhook (orders rejected)
CHECK:    Google Sheet for latest orders
FIX:      If payments fail → check Square API status
ESCALATE: If orders not logging → check n8n execution log
```
