SAOS Quick Start Guide

Document ID: SAOS-QSG-v6.0**Version:** 6.0**Status:** Active**Date:** 2026-06-29**Support:** support@systack.net

What's New in v2.1

This guide reflects the SAOS Dashboard v2.1 update (June 29, 2026):

- **Integration Health Monitoring** — Real-time status of PostgreSQL, n8n, Tailscale, BlueBubbles, Ollama
- **Universal Search** — Search across tasks, chat messages, and activity log
- **Usage Metrics** — Monthly task counts, agent hours, deliverables storage, n8n runs
- **Trust Features** — Data residency, SLA tracking, support escalation, billing transparency

- **Security Hardening** — Rate limiting (5 attempts/5 min), CORS restrictions, token revocation, audit logging
- **Data Export** — Download all your data as ZIP (tasks, chat, deliverables, settings)
- **PIN Management** — First-time setup, change PIN, forgot PIN flow

Step 1: First-Time Login (Onboarding)

1. **Receive your Client ID** — Your SAOS administrator will provide your numeric Client ID
2. **Receive your Temporary PIN** — A 6-digit temporary PIN will be provided separately
3. **Open the dashboard URL** — Navigate to your SAOS dashboard URL
4. **Click “First-Time Setup”** on the login screen
5. **Enter your Client ID and Temporary PIN**
6. **Choose a permanent PIN** (4-10 digits)
7. **Click “Activate Account”**
8. **Log in** with your Client ID and new PIN

Step 2: Navigate the Dashboard

The dashboard has 8 tabs:

TAB	ICON	PURPOSE
Chat		Real-time messaging with your AI agent fleet
Live		Live operations — agent status and task pipeline
Dashboard		Overview metrics, usage stats, integration health
Services		Your tier’s services with setup status
Tasks		Task history with error details
Activity		Real audit trail of all events
Docs		Downloadable documentation
Settings		PIN management, data export, account info

Step 3: Check Integration Health

On the **Dashboard** tab, scroll to the **Integration Health** section:

INTEGRATION	WHAT IT CHECKS
 PostgreSQL	Database connectivity
 n8n	Automation engine status
 Tailscale	VPN mesh network
 BlueBubbles	iMessage bridge

INTEGRATION	WHAT IT CHECKS
 Ollama	Local AI model server

Status indicators: -  Healthy — Responding normally -  Degraded — Slow or partial response -  Down — Not responding

Click  **Refresh** to re-check all integrations.

Step 4: Use Search

The **search bar** is in the navigation bar (desktop). On mobile, it appears below the nav.

1. **Type 3+ characters** — Results appear automatically (300ms debounce)
2. **Results are grouped** by Tasks, Messages, and Activity
3. **Click any result** to navigate to the relevant tab
4. **Click X** to clear search

Search covers: - Task names, descriptions, and types - Chat message content (all conversations) - Activity log entries

Step 5: Request a Service Setup

1. Go to **Services** tab
2. Find the service you want activated
3. Click **Setup** on the service card
4. A task is automatically created and assigned to the right agent
5. Track progress in **Tasks** tab or **Live Ops** tab

Step 6: Export Your Data

1. Go to **Settings** tab
2. Click **Download My Data** button
3. A ZIP file downloads containing:
 - `tasks/` — All task history (JSON)
 - `chat/` — All conversation transcripts (JSON)
 - `deliverables/` — All uploaded files
 - `settings/` — Your account configuration
 - `README.txt` — Data format guide

You own your data. Export it anytime.

Step 7: Manage Your PIN

- **Change PIN** — Settings tab → “Change PIN” → Enter current + new PIN → All existing sessions are revoked
 - **Forgot PIN** — Login screen → “Forgot PIN” → Enter Client ID + email → Receive temp PIN
 - **Security** — 5 login attempts per 5 minutes (rate limited)
-

Need Help?

- **Dashboard Chat** — Click the Chat tab and message SOL directly
 - **Email** — support@systack.net
 - **iMessage** (Enterprise/Private tiers) — +1-501-274-6231
-
