SAOS Quick Start Guide

Document ID: SYS-QSG-v7.0 **Version:** 7.0 **Status:** PRODUCTION READY **Prepared for:** SAOS Clients
Prepared by: SOL — SyStack Operations Layer **Date:** June 30, 2026 **Support:** support@systack.net

What’s New in v7.0

- **Live Operations Tab** — Real-time agent status with heartbeat timestamps
- **Dynamic Services** — Your plan services now update automatically from the backend
- **Activity Audit Trail** — See task lifecycle events, deliverable uploads, and notifications
- **Smart Error Handling** — Dashboard shows friendly retry UI if a service is temporarily unavailable
- **Deliverable Storage** — Upload and download files directly through your Tasks tab

Step 1: Get Your Credentials

After subscribing to SAOS, your administrator will provide:

ITEM	DESCRIPTION
Client ID	Your unique account number (e.g., 1)
Temporary PIN	A 6-digit code sent via email (valid for 24 hours)
Dashboard URL	Your Tailscale-secured access link

Step 2: Set Up Your PIN (First Time Only)

1. Visit your dashboard URL on your computer or mobile device
2. Click **“First time? Set up your PIN”**
3. Enter:
 - **Client ID:** Your account number
 - **Temporary PIN:** The 6-digit code from your email
 - **New PIN:** Choose a permanent PIN (4–10 digits)
 - **Confirm New PIN:** Re-enter to confirm
4. Click **Set PIN & Continue**
5. You’ll be automatically logged in

Step 3: Log In (Returning Users)

1. Visit your dashboard URL
2. Enter your **Client ID** and **PIN**
3. Click **Access Dashboard**
4. Your session lasts 30 days — no need to log in repeatedly

Step 4: Explore Your Dashboard

Your dashboard has **8 tabs**:

TAB	WHAT YOU DO
 Chat	Message your AI agents, create tasks, get updates
 Dashboard	See fleet status, metrics, and all 10 agents
 Services	View your plan's included services and infrastructure
 Tasks	Track task progress, filter by status, click for details
 Activity	See the last 50 events: tasks, deliverables, notifications
 Live Ops	Real-time agent heartbeats — see who's active right now
 Docs	Download PDF guides and technical documentation
 Settings	View account info and change your PIN

Step 5: Start Your First Conversation

1. Go to the **Chat** tab
2. Click **+ New Chat** in the sidebar
3. Type your request (e.g., “I need help setting up invoice processing”)
4. Press **Enter** to send
5. An agent will respond and may create a task automatically

Step 6: Check Your Tasks

1. Go to the **Tasks** tab
2. Use filter buttons to see **Pending**, **Running**, **Done**, or **Failed** tasks
3. Click any task to see full details
4. **Upload deliverables** — Click the paperclip icon in task detail to upload files
5. **Download deliverables** — Files sent by agents appear with download links

Step 7: Watch Live Operations

The **Live Ops** tab shows your agent fleet in real time:

-  **Active** — Agent responded recently (green)
-  **Stale** — No response in 5+ minutes (yellow)
-  **Offline** — Agent not responding (red)

Use this tab to confirm your fleet is healthy before important requests.

Step 8: Download Documentation

1. Go to the **Docs** tab
2. Download the **Dashboard User Guide** for complete feature reference
3. Download the **Mobile Access Guide** for iPhone/Android setup

Mobile Access

iPhone / iPad

1. Install **Tailscale** from the App Store
2. Sign in with your Tailscale account
3. Connect to the tailnet
4. Open Safari → visit your dashboard URL
5. Bookmark for quick access

Android

1. Install **Tailscale** from Google Play
2. Sign in and connect
3. Open Chrome → visit your dashboard URL

Troubleshooting

PROBLEM	SOLUTION
“Invalid PIN”	Try again or use Forgot PIN? on the login screen
“PIN not set”	You need a temporary PIN from your administrator first
“Temporary PIN expired”	Contact your administrator for a new one
“Client not found”	Check your Client ID — it’s a number, not your name
Dashboard won’t load	Ensure you’re connected to Tailscale
“Service Temporarily Unavailable”	The API is restarting — click Retry or wait 30 seconds
Agent shows “Stale”	Agent may be processing a large task — check Tasks tab
