1. Overview

The Utopia Deli Catering Lead System captures event and catering inquiries through a 5-step form on your website. Each submission is automatically scored, categorized, and responded to — so high-value leads get immediate attention while standard inquiries receive appropriate follow-up information.

This system eliminates the back-and-forth of phone and email lead qualification, responding to every inquiry within minutes.

2. How the System Works

Step 1 — Customer Submits Inquiry

Customers visit: <https://order.theutopiadeli.com/catering/>

They complete a 5-step form:

STEP	INFORMATION COLLECTED
1	Event type and details
2	Guest count and event date
3	Service style preference
4	Contact information (name, email, phone)
5	Special requests and budget

Step 2 — Automatic Lead Scoring

The system immediately scores each lead based on:

- **Guest count** (40% weight) — larger events score higher
- **Date proximity** (30% weight) — sooner events score higher
- **Service type** (20% weight) — full-service scores higher than drop-off
- **Budget mentioned** (10% weight) — bonus for providing budget

Score thresholds:

SCORE	CATEGORY	RESPONSE
80+	High	Detailed quote + calendar link
50–79	Medium	Standard info + follow-up offer
Below 50	Low	Basic info + “let us know if dates change”

Step 3 — Automatic Email Response

Within minutes of submission, the customer receives an email tailored to their lead score:

- **High-score leads:** Detailed catering information, sample pricing, and a link to schedule a call
 - **Medium-score leads:** Standard catering overview with an offer to follow up
 - **Low-score leads:** Basic information with encouragement to reach out when plans are firmer
-

Step 4 — Internal Notification

The deli receives an internal notification for every lead, with high-score leads flagged for priority personal follow-up.

Step 5 — Lead Storage

All leads are stored in a database for:

- Future reference and follow-up
 - Tracking conversion rates
 - Identifying repeat inquiries
-

3. What You See
