Workflow: Catering Lead Intake

Webhook: POST <https://utopia-api.systack.net/webhook/utopia-deli-catering-v2>

Node 1 — Webhook

Type: Webhook (POST)

Mode: responseNode

Receives 5-step form submission:

- Event type and details
- Guest count and event date
- Service style (full-service / drop-off)
- Contact info (name, email, phone)
- Special requests and budget

Node 2 — Validate Fields

Type: Code Node

Checks:

- Required fields present (name, email, event date, guest count)
- Email format valid
- Guest count is positive number
- Event date is in the future

Returns error response if validation fails.

Node 3 — Score Lead

Type: Code Node

Calculates weighted lead score:

FACTOR	WEIGHT	LOGIC
Guest count	40%	>100 = 100pts, 50–100 = 65pts, <50 = 30pts
Date proximity	30%	<2 wks = 100pts, 2–4 wks = 65pts, >4 wks = 30pts
Service type	20%	Full-service = 100pts, Drop-off = 30pts
Budget mentioned	10%	Yes = 100pts, No = 0pts

Outputs: `lead_score` (0–100), `lead_category` (high/medium/low)

Node 4 — Route by Score

Type: Switch Node

Routes to appropriate email template:

- **High (80+):** → Node 5 (Detailed Quote)
- **Medium (50–79):** → Node 6 (Standard Info)
- **Low (<50):** → Node 7 (Basic Info)

Node 5 — High Score Email

Type: Email Send (SMTP)

Template: Detailed catering quote

Contents:

- Personalized greeting
- Catering menu overview
- Sample pricing for guest count range
- Calendar link to schedule consultation
- Payment policy (50% deposit)
- Contact information

Node 6 — Medium Score Email

Type: Email Send (SMTP)

Template: Standard catering information

Contents:

- Personalized greeting
 - Catering services overview
 - “Would you like more details?” follow-up offer
 - Contact information
-

Node 7 — Low Score Email

Type: Email Send (SMTP)

Template: Basic information

Contents:

- Thank you for inquiring
 - Brief catering overview
 - “Let us know when your plans are firmer”
 - Contact information
-

Node 8 — Log to SQLite

Type: SQLite Node

Inserts row into `catering_leads` table:

- Lead score and category
 - Customer contact information
 - Event details
 - Timestamp
-

Node 9 — Internal Notification

Type: Email Send (SMTP)

Sends alert to deli:

- Lead score and category
 - Customer name and contact
 - Event details summary
 - High-score leads flagged for priority follow-up
-

Node Chain Summary

```
Webhook (POST)
  → Validate Fields
  → Score Lead
```

```
→ Route by Score (Switch)
  └─ High → Detailed Quote Email
  └─ Medium → Standard Info Email
  └─ Low → Basic Info Email
→ Log to SQLite
→ Internal Notification
→ Response Node
```
