Partial Success (200 with OCR fallback)

When vendor format is not recognized, OCR extracts what it can:

```
{
  "vendor": "Unknown Vendor",
  "invoice_number": "Detected: 12345",
  "date": "2026-06-01",
  "line_items": [
    {"name": "Item 1", "qty": 1, "price": null, "total": 85.00}
  ],
  "subtotal": null,
  "tax": null,
  "total": 108.50,
  "ocr_fallback": true
}
```

Fields may be `null` when OCR cannot confidently extract them.

Error (400)

```
{
  "error": "No file provided",
  "detail": "Request must include a PDF file in the 'file' field"
}
```

Error (422)

```
{
  "error": "Unreadable PDF",
  "detail": "File could not be parsed. Ensure it is a valid PDF."
}
```

Error (500)

```
{
  "error": "Extraction failed",
  "detail": "Internal processing error. Try again or contact support."
}
```
