Missed-Lead Recovery Engine — ROI Projection

Automation ID: missed-lead-recovery

Version: 1.0

Status: Draft — Planning

Date: 2026-06-16

Builder: SOL / Assembly

1. Baseline Assumptions

METRIC	CONSERVATIVE	MODERATE	OPTIMISTIC
Monthly booking attempts	150	200	300
Abandonment rate	25%	30%	35%
Recovery rate	10%	15%	20%

METRIC	CONSERVATIVE	MODERATE	OPTIMISTIC
Average booking value	\$40	\$50	\$65

2. Revenue Projections

Conservative Scenario

CALCULATION	VALUE
Monthly attempts	150
Abandoned (25%)	38
Recovered (10%)	4
Avg booking value	\$40
Monthly recovered revenue	\$160
Annual recovered revenue	\$1,920

Moderate Scenario (Target)

CALCULATION	VALUE
Monthly attempts	200
Abandoned (30%)	60
Recovered (15%)	9
Avg booking value	\$50
Monthly recovered revenue	\$450
Annual recovered revenue	\$5,400

Optimistic Scenario

CALCULATION	VALUE
Monthly attempts	300
Abandoned (35%)	105
Recovered (20%)	21
Avg booking value	\$65
Monthly recovered revenue	\$1,365
Annual recovered revenue	\$16,380

3. Cost Analysis

COST ITEM	AMOUNT
Build effort	~12 hours (one-time)
Monthly maintenance	\$0 (fully automated)
Email sending (SMTP)	\$0 (existing infrastructure)
Database storage	\$0 (existing Postgres)
Total fixed cost	~12 hours labor
Monthly operating cost	\$0

4. Payback Period

SCENARIO	MONTHLY REVENUE	BUILD COST (HOURS)	PAYBACK
Conservative	\$160	12 hrs	< 1 month
Moderate	\$450	12 hrs	< 1 month
Optimistic	\$1,365	12 hrs	Immediate

Conclusion: Positive ROI in all scenarios within the first month.

5. Comparison: Recovery vs New Customer Acquisition

CHANNEL	COST PER CUSTOMER	MONTHLY VOLUME
Paid ads (Google/Facebook)	\$15–30	Varies
Delivery platform fees	20–30% per order	Ongoing
Missed-lead recovery	\$0	4–21 recovered/month

Recovered leads cost \$0 to acquire — they already found you once.

6. Sensitivity Analysis

What if recovery rate is only 5%?

SCENARIO	MONTHLY REVENUE
Conservative (150 attempts)	\$80
Moderate (200 attempts)	\$150
Optimistic (300 attempts)	\$340

Still positive ROI — system costs \$0/month to run.

What if average booking value is \$25?

RECOVERY RATE	MONTHLY REVENUE
10%	\$112
15%	\$225
20%	\$375

Still positive ROI at any recovery rate above ~2%.

7. Recommendation

Build immediately. Zero operating cost, positive ROI at any recovery rate above 2%, and recovered customers have higher lifetime value (they already showed purchase intent).

Specification document — not yet built.
