1. Overview

The Utopia Deli Online Ordering System allows customers to:

- Place orders directly from your website
- Select menu items and modifiers (extras, changes, etc.)
- Choose a pickup time
- Pay securely through Square
- Receive confirmation after payment

This system enables faster ordering, reduces manual work, and eliminates third-party delivery fees.

2. How the System Works

Step 1 — Customer Places Order

Customers visit: <https://order.theutopiadeli.com/pickup-order/>

They:

- Select items from the menu
- Add modifiers (e.g., extra mayo)
- Choose a pickup time
- Enter contact information

Step 2 — Order Processing

The system automatically:

- Validates the order
- Calculates subtotal, tax, and total
- Generates a unique Order ID

Example:

```
UD-20260616-143022-4782
```

Step 3 — Payment Redirect

- The system generates a secure Square payment link
- The customer remains on the order page
- The customer is redirected to Square to complete payment

No email is sent at this stage.

Step 4 — Payment Completion

- Customer completes payment in Square
- Square sends confirmation to the system

Step 5 — Order Fulfillment Trigger

After payment is confirmed:

- Kitchen receives the order notification
- Customer receives a confirmation email

No order is sent to the kitchen before payment is complete.

3. What You See

New Order Notification (Kitchen)

Example:

```
NEW ORDER: UD-20260616-143022-4782
Customer: John Smith
Phone: 555-123-4567
Pickup: 2:30 PM
Items:
• Italian Sub (x1)
• Chips (x2)
Total: $11.49
Notes: Extra mayo
```

Customer Confirmation Email

Customer receives:

- Order number
- Pickup time
- Itemized order list
- Total paid

There is no order status or tracking button.

4. Order Lifecycle

STAGE	DESCRIPTION
Order Submitted	Customer completes form
Payment Redirect	Customer is sent to Square
Payment Completed	Square confirms payment
Kitchen Notification	Sent after payment only
Confirmation Email	Sent to customer

Invariant: Orders are only created after payment is complete.

5. Business Hours Logic

Operating hours:

- Monday–Saturday: 12:30 PM – 7:30 PM
- Sunday: Closed

System behavior:

- “ASAP” orders are automatically set to current time + 30 minutes
 - Orders outside business hours are blocked
-

6. Key Benefits

- Reduced processing fees (approximately 3.2%)
 - Faster order completion (average under 60 seconds)
 - Full ownership of customer data
 - No dependency on third-party delivery platforms
-

7. Common Questions

What if a customer does not pay?

- The order is not created
 - The kitchen receives nothing
 - The process stops at the payment stage
-

Can orders be edited?

- Not automatically
 - Customers must call in changes
-

Where are orders stored?

Orders may be stored in:

- Local databases (SQLite or file-based storage)
- Google Sheets
- PostgreSQL

Storage depends on system configuration.

What if a customer says they paid but no confirmation was received?

Steps:

1. Check the payment in Square
2. If payment is confirmed:
 - The system may be delayed
 - The notification may arrive late

Known issue:

- Square outages or webhook delays can delay or prevent notifications

Action:

- Treat confirmed payment as valid
 - Notify kitchen manually if necessary
-

8. Troubleshooting

Not receiving orders

- Check email inbox and spam folder
 - Check kitchen notification device (SMS or tablet)
-

Payment completed but no order received

Possible cause:

- Square webhook delay or outage

Resolution:

1. Verify payment in Square
2. Notify kitchen manually
3. Complete order fulfillment

Incorrect order details

- Usually caused by customer input
- Review menu and form configuration if issues persist

9. Support

10. Summary

The Utopia Deli Online Ordering System provides:

- Direct online ordering
- Secure payment processing
- Automated order handling
- Reduced operational overhead
- Improved customer experience

Orders are only created after payment is complete, ensuring accuracy and eliminating unpaid or invalid orders.
