Referral Engine — Incentive Structure Guide

Automation ID: referral-engine

Version: 1.0

Status: Draft — Planning

Date: 2026-06-16

Builder: SOL / Assembly

1. Program Models

Model A: Flat Credit (Simplest)

PARTY	REWARD	WHEN
Referrer	\$10 account credit	After referee completes first booking
Referee	10% off first visit	Applied at checkout

Best for: Getting started quickly, testing referral behavior.

Model B: Tiered Rewards (Gamified)

REFERRALS/MONTH	REFERRER REWARD
1–2	\$10 credit each
3–5	\$15 credit each
6+	\$20 credit each + “Top Referrer” badge

Best for: Encouraging power referrers, creating social proof.

Model C: Service-Based Rewards

PARTY	REWARD
Referrer	Free add-on with next service (e.g., free beard trim)
Referee	Free add-on with first service

Best for: Service businesses where credits feel less tangible than free upgrades.

Model D: Double-Sided Discount

PARTY	REWARD
Referrer	20% off next visit
Referee	20% off first visit

Best for: High-margin services where discounts drive volume.

2. Reward Rules (Recommended)

RULE	VALUE	RATIONALE
Credit expiration	90 days	Encourages timely rebooking
Max monthly rewards	5 per referrer	Prevents abuse
Min referee spend	Full-price service	Prevents self-referral
Unique referee	Must be new customer	Prevents repeat abuse

3. Anti-Abuse Measures

RISK	MITIGATION
Self-referral (same person)	Check email/phone uniqueness
Fake bookings for credits	Require completed service, not just booking
Credit farming	Monthly cap (5 referrals)
Expired credit complaints	Clear expiration in notification

4. Program Launch Checklist

- ☐ Referral links generating correctly
- ☐ Attribution tracking working end-to-end
- ☐ Rewards applying automatically
- ☐ Notifications sending
- ☐ Anti-abuse rules configured
- ☐ Dashboard tracking metrics
- ☐ Terms communicated to customers

5. Optimization

METRIC TO WATCH	IF LOW	IF HIGH
Participation rate	Increase reward, improve promotion	Consider tiered program
Conversion rate	Simplify referee experience	Increase reward for referrer
Cost per acquisition	Reduce reward	Program is efficient — scale it
