1. Overview

SAOS (Service as a Service) is Systack’s food truck pitch system. It combines a lead capture landing page with Stripe payment links — prospects can view the offer and pay immediately. Built for pitching online ordering systems to food trucks.

URL: <https://systack.net/saos/>

Demo: <https://systack.net/saos/demo.html>

2. System Architecture

```
Prospect visits SAOS landing page
  → Views pitch + pricing
  → Clicks "Get Started"
    → Fills lead form (name, email, truck name)
      → Form submits to n8n webhook
        → Lead logged to database
        → Stripe payment link generated
        → Prospect redirected to Stripe checkout
          → Payment completed
            → Confirmation page (thanks.html)
            → Internal notification
```

3. Core Components

Frontend

FILE	PURPOSE
saos/index.html	Landing page with pitch + pricing
saos/demo.html	Interactive demo for prospects
saos/thanks.html	Post-payment confirmation

n8n Workflows

WORKFLOW	FILE	PURPOSE
Lead Capture	<code>saos/n8n-lead-workflow.json</code>	Receives form, logs lead
Payment Links	<code>saos/stripe-payment-links-workflow.json</code>	Generates Stripe checkout

4. Setup Process (Replication)

Step 1 — Deploy Landing Page

- Copy `saos/` directory to client domain
- Customize pitch copy for target industry
- Update pricing and features list

Step 2 — Configure n8n

- Import lead capture workflow
- Import Stripe payment links workflow
- Set webhook paths
- Configure Stripe credentials

Step 3 — Test

- Submit test lead → verify database logging
- Complete test payment → verify Stripe checkout
- Check confirmation page displays

5. Configuration

Environment Variables

VARIABLE	PURPOSE
<code>STRIPE_SECRET_KEY</code>	Stripe API authentication
<code>SAOS_WEBHOOK_PATH</code>	Lead capture endpoint

6. Pitch Targets

See `saos/SAOS-PITCH-LIST.md` for compiled food truck targets in Little Rock metro.
