SAOS Dashboard User Guide

Document ID: SYS-DASH-UG-v3.0 **Version:** 3.0 **Status:** PRODUCTION READY **Prepared for:** SAOS Clients **Prepared by:** SOL — SyStack Operations Layer **Builder:** SOL + ASSEMBLY **Source System:** SAOS v2026.06 **Date:** June 25, 2026 **Support:** support@systack.net

Introduction

The SAOS Client Portal is your command center for monitoring and interacting with your AI agent fleet. This guide covers every tab, the login process, PIN management, and the full client experience.

Getting Started — First Time Login

Step 1: Receive Your Invitation

When your SAOS account is created, your administrator will provide you with:

- **Client ID:** Your unique account number (e.g., 1)
- **Temporary PIN:** A 6-digit code (valid for 24 hours)
- **Dashboard URL:** Your Tailscale-secured access link

Step 2: Set Up Your Permanent PIN

1. Visit your dashboard URL
2. Click **“First time? Set up your PIN”**
3. Enter your Client ID and Temporary PIN
4. Choose a permanent PIN (4–10 digits)
5. Confirm your new PIN
6. Click **Set PIN & Continue**
7. You’ll be automatically logged in

Step 3: Regular Login

After setup, simply enter your **Client ID** and **PIN Code** on the login screen.

Forgot your PIN? Click **“Forgot PIN?”** on the login screen, enter your Client ID and registered email. A reset code will be generated and sent by your administrator.

Dashboard Navigation

The top navigation bar provides access to **seven sections**:

TAB	ICON	PURPOSE
Chat		Real-time messaging with your AI agents
Dashboard		Fleet status, metrics, agent overview
Services		Your tier-specific services and features
Tasks		Task history, filtering, and detail view
Activity		Recent activity log with clickable items
Docs		Documentation and guides
Settings		Account info, PIN management, deployment details

On mobile, tap the **≡ hamburger menu** to access all tabs.

Chat Tab

Your primary way to interact with the SAOS fleet.

Starting a Conversation

1. Click **+ New Chat** in the left sidebar
2. Optionally give your conversation a title

3. The conversation appears in your sidebar

Sending Messages

- Type your message in the input box at the bottom
- Press **Enter** to send
- Press **Shift+Enter** for a new line

What to Ask

Your agents can handle requests like:

- “Set up invoice processing for my accounting system”
- “Draft a response to the customer complaint about late delivery”
- “Summarize my unread emails from today”
- “Create a daily report of new leads”
- “Fix the error in my automation workflow”

Agent Responses

Messages appear with: - **Avatar** showing which agent responded (👤 SOL, 🧑 CODY, etc.) - **Timestamp** (e.g., “just now”, “5m ago”, “2h ago”) - **Task Badge** if the message created a task (e.g., “Task #42”)

Automatic Task Creation

When your message contains action words like “create”, “build”, “fix”, “deploy”, or “update”, the system automatically creates a task and assigns it to SOL. A system message confirms the task creation in chat.

Dashboard Tab

Metrics Overview

Four metric cards show: - **Active Tasks**: Currently being processed by agents - **Pending**: Tasks awaiting agent assignment - **Completed**: All-time completed tasks - **Unread Messages**: Messages from agents you haven’t read

Agent Fleet

Each agent card displays:

ELEMENT	DESCRIPTION
Avatar	Emoji icon (👤 SOL, 🧑 CODY, 🛠️ ASSEMBLY, etc.)
Name	Agent identifier
Status	IDLE, BUSY, ERROR, or OFFLINE
Role	Short title (e.g., “System Operations Liaison”)
Description	Full explanation of what the agent does
Capabilities	Tag list of specific skills

Click any agent card to see a detailed modal with full capabilities and status information.

Your 10-Agent Fleet

AGENT	ROLE	WHAT THEY DO
 SOL	System Operations Liaison	Main point of contact. Coordinates the fleet, handles strategic requests.
 CODY	Code Agent	Writes, reviews, and deploys code. Website changes, API integrations.
 ASSEMBLY	Integration Builder	Connects your tools. Workflows between Stripe, Slack, email, databases.
 VALI	Validation Agent	Quality control. Reviews code, tests automations, verifies data integrity.
 PESSI	Risk Agent	Identifies what could go wrong. Edge cases, security risks, failure modes.
 ORACLE	Research Agent	Deep research, analysis, strategic evaluation. Technology assessment.
 ATLAS	Deployment Agent	Infrastructure and DevOps. Servers, Tailscale, keeps systems running.
 CHATTY	Communication Agent	Messaging, outreach, content creation. Drafts emails, social posts.
 GENI	Creative Agent	Images, videos, creative assets. Marketing visuals and multimedia.
 JURIS	Legal & Compliance	Reviews for compliance, audits configs, ensures legal requirements are met.

Services Tab

Shows services included in your plan tier:

- **Active services** (●) are currently running
- **Setup Pending** services (●) require configuration

Also displays: - **Infrastructure** details (VPS, AI models, network) - **Support** information (channel, response time, SLA)

Tasks Tab

Task List

Each task row shows: - **Task name** (human-readable, e.g., “Client Request” instead of “client_request”) - **Description** (what the task actually does) - **Task ID** and **Priority** badges - **Assigned agent** - **Status** (PENDING, RUNNING, DONE, FAILED, DEAD) - **Created timestamp**

Task Filtering

Filter buttons at the top let you quickly filter by status: - **All** — Show all tasks - **Pending** — Awaiting agent - **Running** — Currently processing - **Done** — Completed successfully - **Failed** — Encountered an error

Task Detail View

Click any task row to open a detail modal showing: - Full task name and description - Status badge - Assigned agent - Priority level - Created and completed timestamps - Error messages (if any)

Activity Tab

Shows the 20 most recent tasks as an activity feed with: - Status icon ( Running,  Pending,  Done,  Failed,  Dead) - Task name and ID - Description preview - Status pill and assigned agent - Timestamp

Click any activity item to see the full task detail modal.

Docs Tab

Downloadable PDF documentation:

DOCUMENT	DESCRIPTION
Quick Start Guide v4.0	Get started with PIN auth and mobile access
Service Manual v4.0	Complete SAOS system reference
Architecture Overview v3.0	Technical architecture and components
Dashboard Mobile Access Guide	iPhone and Android mobile setup
Enterprise Deployment Guide	On-premise setup (Enterprise/Private tiers only)

Settings Tab

Account Information

View your: - Client ID - Name and email - Current plan tier (with badge) - Account status

Security — Change PIN

1. Click **Change PIN** button
2. Enter your current PIN
3. Enter your new PIN (4–10 digits)
4. Click **Update PIN**
5. Confirmation message appears

Deployment Info

View your: - Deployment type (vultr, on-premise, etc.) - VPS status - Tailscale access URL (if configured)

Mobile Access

iPhone/iPad

1. Install **Tailscale** from the App Store
2. Sign in with your Tailscale account
3. Connect to the tailnet
4. Open Safari and visit your dashboard URL
5. Bookmark for quick access

Android

1. Install **Tailscale** from Google Play
2. Sign in and connect
3. Open Chrome and visit your dashboard URL

Mobile Features

- **Hamburger menu** for tab navigation
- **Slide-out sidebar** for chat conversations
- **Touch-optimized** input areas (prevents iOS zoom)
- **Responsive layout** — all tabs work on mobile

Troubleshooting

Can't Log In

PROBLEM	SOLUTION
"Invalid PIN"	Check your PIN. Try again or use the Forgot PIN flow
"PIN not set"	You need a temporary PIN from your administrator first
"Temporary PIN has expired"	Contact your administrator for a new one
"Client not found"	Check your Client ID — it's a number, not your name

Session Expired

If you see "Session expired", you'll be automatically logged out. Simply log back in with your Client ID and PIN. Sessions last 30 days.

Page Won't Load

- Ensure you're connected to **Tailscale** (required for remote access)
- Check with your administrator that the dashboard service is running
- Try refreshing the page

Quick Reference

ACTION	HOW
Log in	Client ID + PIN
First time setup	Click "First time? Set up your PIN"
Reset PIN	Click "Forgot PIN?" → enter Client ID + email
Change PIN	Settings tab → Security → Change PIN
Message agents	Chat tab → New Chat → type message
View tasks	Tasks tab → click any row for details
View agent info	Dashboard tab → click any agent card
Download docs	Docs tab → click any document
View account	Settings tab → Account Info

For technical support, contact support@systack.net or message SOL through your dashboard chat.
